Subject: Who oversees the environmental impact of EPA activities?

The introduction to the Upper Animas Red And Bonita Bulkhead Fact Sheet states:

Along with this work, EPA also plans to remove the blockage and reconstruct the portal at the Gold King Mine in order to best observe possible changes in discharge caused by the installation of Red and Bonita Mine bulkhead.

Who reviewed this work for safety and potential environmental impact?
How was it approved?

regards,

Citizen Name/Ex. 6

Voter since 1972
